

Intellego Unit Studies

Inspired by the multiple intelligences of every child

System Requirements

All of our unit studies are web linked and include streaming videos, interactive websites, and other online features which may not perform well on computers with smaller system configurations or older versions of software. Therefore, the following minimum system requirements are recommended for our unit studies:

Windows XP® Service Pack 2

- 1 GHz or higher processor
- 512 MB Memory (RAM) (1 GB recommended)
- 500 MB or more available hard drive space
- 1024x768 or higher resolution monitor, 16 bit color or higher
- CD-ROM, if purchasing unit studies on CD
- Adobe Acrobat Reader® V6 ([download here](#))
- Adobe Flash Player® 7.0+ plug-in ([download here](#))
- Internet Explorer V7, Firefox V1.1, or Safari 1.0
- Speakers

Windows Vista® or Windows 7®

- 1 GHz or higher processor
- 1 GB recommended (2 GB recommended)
- 500 MB or more available hard drive space
- 1024x768 or higher resolution monitor, 16 bit color or higher
- CD-ROM, if purchasing unit studies on CD
- Adobe Acrobat Reader® V8 ([download here](#))
- Adobe Flash Player® 9.0+ plug-in ([download here](#))
- Internet Explorer V8, Firefox V1.1, or Safari 1.0
- Speakers

Apple MAC OS X 10.3 or higher

DSL/Cable Broadband or better Internet Connection with 250 Kbps throughput

Other Flash and Video Players besides Adobe may also work.

Other PDF Readers besides Adobe Acrobat Reader® may also work.

Some websites may require Java installed ([download here](#)).

Some websites may require other applications to be loaded based off of your computer's configuration, such as Microsoft's Windows Media Player® ([download here](#)) and Apple's QuickTime® ([download here](#)).
